LIONGUARD CANADIAN SMALL CAP FUND

LATEST COMMENTARY

The current market environment presents both numerous challenges and great opportunities. Fundamental investors need to adjust their forecasts to account for higher interest rates, supply chain disruptions, inflationary pressure on labor and raw materials fronts, etc. Markets have recently endured indiscriminate selling where even the highest-quality businesses can't resist the tide.

As long-term investors, we know that these periods are normal occurrences in a market cycle. Time and time again we've seized such opportunities to buy pieces of great businesses at highly discounted prices in order to compound our investors capital.
